City of Pflugerville Approves Incentive Deal for Renewable Energy Manufacturer

September 28, 2011, AUSTIN — Last night the City of Pflugerville approved local incentives for renewable energy manufacturer Complete Energy Systems (CES <http://comenersys.com/>) to relocate from Boca Raton, Fla.

CES will receive a 50 percent property tax rebate from the city for five years, up to \$375,000. In addition, the economic development corporation has agreed to pay the company \$3,000 per job created, up to \$750,000, as well as \$75,000 in moving expenses. CES is proposing to create 230 assembly/manufacturing jobs, invest \$13.4 million in machinery/equipment, and pay an average annual wage of \$55,000.

CES is planning to move into a 80,000 sq. ft. manufacturing building in Pflugerville's brand new Renewable Energy Industrial Park. They proposed to create 230 assembly/manufacturing jobs, invest \$13.4 million in machinery/equipment, and pay an average annual wage of \$55,000. Pflugerville's brand new Renewable Energy Industrial Park is where they plan to move into a 80,000 sq. ft. manufacturing building.

Through Opportunity Austin, the Austin Chamber of Commerce assisted the company by providing site tours, exploring incentive options in the region, and facilitating the introduction to the Pflugerville Community Development Corporation (PCDC), whom ultimately decided to partner with the prospect to make the deal happen.

CES manufactures mobile power trailers and units that provide power, refrigeration, and other services in remote locations. These mobile power units will be deployed in Africa and other remote areas to serve as medical clinics, food trailers, refrigerators, water purifiers, and other applications. The mobile power units operate completely off-grid and feature micro wind turbines, solar panels, energy storage, and LED lighting.

About the Chamber

The mission of the Austin Chamber of Commerce is to provide leadership that facilitates the creation of a prosperous regional economy and effective advocacy for its members. For more information about the Austin Chamber of Commerce visit austinchamber.com.

About Opportunity Austin

Opportunity Austin is the Austin Chamber of Commerce's five-year economic development initiative to foster sustainable growth through the creation of new jobs and increased payroll in the Central Texas region. For more information visit opportunityaustin.com.

About Complete Energy Systems

Complete Energy Systems LLC (CES) identifies renewable energy opportunities that are technologically and commercially viable. Through our research and strategic partnerships we create companies that bring to market renewable energy products that are manufactured locally, fulfilling our commitment to job creation and local economies. CES is aggressively pursuing this through two wholly owned subsidiary companies: Green World Systems LLC (GWS) and Atlantic Solar LLC (Atlantic Solar). CES provides strategic direction, technological, scientific and business expertise to these companies. For more information, visit comenersys.com.
