Together
We Educate
Pflugerville
Central Texas is at a critical juncture. Despite our booming economy, a wide gap exists between available jobs and local workforce talent. Approximately 50% of our current job openings require a bachelor’s degree, 12% require an associate degree and 85% of our unemployed lack either.¹ Over the last decade, nearly 100,000 Central Texas students, a majority of our high school graduates, directly enrolled in college. Our direct-to-college enrollment rates increased by ten percentage points between 2003 and 2008, but leveled off at 60% over the last five years and now sits below the national average.²

When Central Texans lack the skills and education to participate in the economy, the health and prosperity of our community is threatened.

As Chair of the Chamber’s 2015 Education Progress Report Taskforce, I believe we can work together as a community to close this opportunity gap. Our progress reports now unite 11 school districts, 11 regional chambers and dozens of business leaders to track regional challenges, successes and identify ways to improve student educational and

career opportunities. These school districts and partners have worked to improve college readiness rates from 47% in 2007, to 64% in 2013. In partnership with Central Texas school districts, the Greater Austin Chamber of Commerce has also set a 70% regional direct-to-college enrollment goal for 2015, to ensure our students are prepared for college and 21st century careers.

So, to all of you who are engaged in this collective work—whether as educators, business and non-profit leaders or activists, thank you. Educating a child takes a community, and I am so proud to live in a community that comes together to put kids first.

Thank you,

Dawn Jones
External Affairs Manager, Intel
Education Progress Report Taskforce Chair

3 Academic Excellence Indicator System 2007 and Texas Academic Performance Reports 2013
A Snapshot of Pflugerville ISD

Pflugerville Independent School District (PflISD) is a fast-growth district located in Northeast Travis County. The District encompasses approximately ninety-five square miles and includes all or part of Pflugerville, Austin, Coupland, Hutto, Manor and Round Rock. Since 2002, PflISD student enrollment increased by 54% and low-income Hispanic: 46%
Caucasian: 24%
African-American: 18%
Asian: 7%
Two or more races: 4%
American Indian: 4%
Pacific Islander: 0.2%

Demographic summary

Source: Texas Academic Performance Reports and Academic Excellence Indicator System 2002-2014
student enrollment grew from 25% to 54% in 2014.\(^4\)

Despite receiving the lowest per-student funding of any district in Central Texas, Pflugerville ISD continues to offer outstanding educational opportunities for students by committing the majority of its financial resources to campus staff and personnel who directly support the campus efforts.

What Share of PfISD Students Directly Enroll in Higher Education?

PfISD has increased college/career readiness, graduation rates, but direct-to-college enrollment has leveled off at 60% since 2009. Recognizing that higher education is the key vehicle for economic mobility, PfISD is focused on promoting programs that support students on their path to college. PfISD extended college-counseling support to high school graduates as part of a 2013 summer college transition pilot. Overall, college enrollment for low-income/first generation students improved by 10 percentage points over similar students who did not receive support. In addition, PfISD provides college enrollment assistance to students through College Fairs, Financial Aid Saturday events, school day FAFSA completion support, and counselor follow-ups with students.

5 The University of Texas at Austin, Ray Marshall Center, Outcomes and Impact Estimates for the Summer Melt Program in Central Texas, April 2014
College enrollment rates have remained largely flat since 2009.

Percentage of Graduates Who Directly Enroll in Higher Education

Percentage of high school graduates who enrolled in community college or four-year, degree-granting institutions, in Texas or outside of the state, for the first time no later than the fall following graduation.

How Do PfISD Student Career Interests Align with Job Market Demand?

PfISD leverages business/industry partnerships to expose students to three of the top six critical job market areas in Central Texas. The district partners with National Instruments to bring in engineering mentors to enhance student interest in STEM related careers. A six-week clinical rotation at St. David’s North Austin Medical Center provides Health Science Technology students a first-hand look at hospital operations. A+ Federal Credit Union also has a full service branch on two campuses allowing students access to personal finance training. Business and Finance students benefit through internship and job shadowing opportunities with employees of the credit union.

18% of current job openings are computer-related

5% of PfISD students are interested in computers & programming

In order to reach PfISD’s goal of enrolling 70% of our students in higher education, we are focusing on 3 primary goals.
Goal 1

Bolster Student College and Career Readiness

Percentage of high school graduates who met the state college and career readiness standard in:

- English Language Arts
- Math
- Both

Source: Texas Academic Performance Reports and Academic Excellence Indicator System 2009-2014

• In 2015, PfISD will fund the ACT for all 11th graders, in order to increase the 71% SAT/ACT participation rate for the Class of 2016.

• PfISD partners with Austin Community College to offer a college preparatory course in Reading and Mathematics for students in their senior year, who have not shown college readiness.
Goal 2

Increase Student Participation in College Prep Activities

- PfISD partnered with the Austin Chamber to host Financial Aid Saturdays since 2009 resulting in over $9 million in aid awarded and more than 1200 families served.\(^6\)
- PfISD offers ACT test preparation seminars at all high school campuses and partnered with Kaplan Inc. to provide discount PSAT and SAT test prep.
- PFISD routinely hosts district College Fairs in the fall semester so that students have access to college representatives.

- 83% Applied via ApplyTexas
- 83% Aspire to Attend College
- 71% of those enrolled.

Source: University of Texas Ray Marshall Center, Student Futures Project 2014 Student Survey, Texas Higher Education Coordinating Board (ApplyTexas) In-State Filing Data
The University of Texas Ray Marshall Center Has Identified Six Activities That Increase the Likelihood That a Student Will Directly Enroll in Higher Education.

- **45%** Attended a College Fair
  - 76% of those enrolled.

- **71%** Met with a Counselor
  - 71% of those enrolled.

- **40%** Plan to Use Loans
  - 77% of those enrolled.

- **23%** Took SAT/ACT Prep Course(s)
  - 76% of those enrolled.

- **25%** Thought Financial Aid Process was Easy
  - 69% of those enrolled.

- **52%** Completed FAFSA
  - 79% of those enrolled.

Goal 3

Continue to Improve High School Graduation Rates

Percentage of students who graduate within four or five years:

- Graduate within four years
- Graduate within five years

- PfISD counselors meet with all 8th grade students and parents to solidify a 4-year graduation plan prior to high school and review plans annually to ensure students remain on track for high school graduation.

- PfISD chose the Distinguished Level of Achievement Plan as the default plan for all incoming students to ensure they graduate college/career ready.

Visit austinchamber.com/pfisdrpt to view more detailed breakdowns of the four- and five-year graduation rate chart shown above.

Federal graduation rate (without exclusions) AEIS & TAPR Reports from the Texas Education Agency 2009-2013
If we accomplish these goals, PfISD will prepare students for higher education and 21st-century careers.
Pfuture Steps

Direct to College Enrollment

Provide year-round support to college bound seniors

• Extend senior counselor contracts between June and August to target college transition support to low-income and first-generation college intending students.

Job Market/Career Aspirations

Expose students to high-demand careers

• Continue to increase student interest in STEM areas like computer science.
• Expand computer science interest beginning in elementary and middle school.

College or Career Ready

Prepare students for the rigors of higher education

• Assess non-college and career ready juniors/seniors and enroll them in a course which prepares them to graduate college and career ready.

• Continue to increase the percentage of students graduating from high school within four years with college credit through AP exams, dual credit and articulated courses.

• Support PfISD initiatives that promote involvement in high-demand careers like computer science.
Expand access to & affordability of college readiness exams

• Continue partnership with Austin Community College to allow students on-site access to college readiness tests.
• Implement free ACT testing for PfISD students, increasing opportunities to demonstrate college readiness.

College Prep Activities

Ensure that cost is less of a barrier to college enrollment

• Continue using available technology to target FAFSA, ApplyTexas and College Career Readiness support to improve timely resolution of college enrollment requirements.

• Make college enrollment a core district priority
• Set and achieve an 80% participation rate on the Ray Marshall Center Student Survey.

4/5 Year Graduation

Set high expectations for all students

• Applaud PfISD for defaulting to the Distinguished of Achievement
• Ensure that all 8th grade students participate in high school four year planning to ensure students have an aligned endorsement plan, to graduate within four years.
